Automated Test Log

Student: Nsabimana Irene

Registration number: 25/27790

Verification code: AI-A2-7790

Project: Musanze Harvest Intelligence Service

Test command: .\.venv\Scripts\python.exe -m pytest -q

Recorded result: 6 passed, 1 warning in 1.55 seconds.

Full pipeline: PIPELINE COMPLETED SUCCESSFULLY.

Artifact check: 14 required generated artifacts found.

Test coverage reported by the project:

1. Valid prediction inference.
2. Missing required field rejected.
3. Incorrect input type rejected.
4. Out-of-range input rejected.
5. Repeated prediction produces reproducible output.
6. API health and model-information responses.

Warning note: The test run reported one warning. The tests passed, but the warning should be reviewed rather than represented as a warning-free run.

This log records the result reported in the development terminal. Retain the original terminal output as supporting evidence.
